

# INTRODUCTION TO VICTAULIC VORTEX™ FIRE PROTECTION SYSTEMS

## GENERAL OVERVIEW

This course introduces participants to special hazard fire protection systems, and the unique function and application of Victaulic Vortex systems.

## VICTAULIC UNIVERSITY OFFERS A WIDE VARIETY OF CONTINUING EDUCATION COURSES!

From one-hour seminars to full-day events, these courses provide education on key industry concepts and Victaulic solutions. Continuing education courses are created for owners, engineers, contractors, the inspection community, and anyone seeking to expand their knowledge of Victaulic and the industry surrounding the grooved pipe joining and flow control markets.

### Benefits To You

- Earn Continuing Education Units (CEUs) at your convenience; whether on the jobsite, in the shop, or at your office
- All printed training materials and takeaways are provided
- Variety of product samples available for hands-on demonstration
- Conducted by industry experts and Certified Victaulic Training Professionals
- “Train-the-Trainer” sessions also available to make courses repeatable with your staff

### INTRODUCTION TO VICTAULIC VORTEX™ FIRE PROTECTION SYSTEMS

0.1 CEU | 1 PDH

#### Purpose

The purpose of this course is to introduce learners to special hazard fire protection systems, and the unique function and applications of Victaulic Vortex systems.

#### Learning Objectives

- At the end of this course, learners will be able to:
  - Define types of special hazard fire protection systems and how they function
  - Explain how a hybrid fire protection system extinguishes a fire
  - Identify the appropriate applications for hybrid fire protection systems
  - Know the configurations, applications, benefits, and components of Victaulic Vortex systems
  - Discuss testing, approvals, and codes associated with hybrid fire extinguishing systems
  - Locate resources

#### Lessons

- Special Hazard Fire Protection Systems
  - The Fire Triangle
  - Control / Suppression / Extinguishing Principles
  - Types Of Special Hazard Fire Protection Systems
- Victaulic Vortex Systems
  - Overview
  - How It Works
  - Hybrid Emitter Operation
  - Safe System Solution
  - Applications
  - Benefits
  - Components
  - Testing & Approvals
- Code Requirements
  - Current State
  - Future State
- Review Session / Q&A
