

NOTICE OF AVAILABILITY

FINAL ENVIRONMENTAL ASSESSEMENT AND FINAL SECTION 4(F) DETERMINATION FOR TRENTON MERCER AIRPORT – RUNWAY PROTECTION ZONE AND OBSTRUCTION MITIGATION PROJECT

Mercer County announces the completion of the Final Environmental Assessment (EA) and U.S. Department of Transportation – Section 4(f) Determination for the proposed Runway Protection Zone (RPZ) and Obstruction Mitigation project at the Trenton Mercer Airport. The Final EA has been prepared in accordance with the Federal National Environmental Policy Act (NEPA) of 1969, as amended, Federal Aviation Administration (FAA) Order 1050.1F, FAA Order 5050.4B, National Historic Preservation Act's Section 106 process, Executive Orders 11988 – Floodplain Management and 11990 – Protection of Wetlands, and Section 4(f) of the US Department of Transportation (DOT) Act. The purpose of the proposed project is to remove critical obstructions, enhance the safety of aircraft operations, and comply with federal design standards and grant assurances (obligations) with respect to obstructions to airspace and incompatible land uses in the RPZs. After careful consideration of the information contained in the Final EA, the Federal Aviation Administration (FAA) has determined that significant environmental effects will not result from the proposed action. Therefore, the FAA has issued a Finding of No Significant Impact / Record of Decision (FONSI/ROD).

Document Availability:
