List of Acronyms

Acronym	Definition
CP-29	Commissioner Policy 29, Environmental Justice and Permitting
NOCA	Notice of Complete Application
NYSDEC	New York State Department of Environmental Conservation
NOx	Oxides of Nitrogen
PEJA	Potential Environmental Justice Area
PPM	Parts per million
PPP	Public Participation Plan
MTPD	Metric Tons per Day
MW	Megawatt
TSA	Temperature swing adsorption
ACT	Advanced Clean Trucks
GHG	Greenhouse gas

I. INTRODUCTION AND OBJECTIVE

This Public Participation Plan (PPP) has been prepared by Alliance NYGT, LLC (Alliance) (hereinafter referred to as “applicant”) to fulfill and comply with the requirements of New York State Department of Environmental Conservation **Commissioner Policy 29, Environmental Justice and Permitting (CP-29)** for the proposed installation of a water injection air pollution control system at the Shoemaker Energy Facility. In addition, the facility will end its existing Title V Air Permit, by obtaining an Air State Facility (ASF) Permit, which will limit facility emissions of carbon monoxide (CO) to below 99.5 tons per 12-month rolling total. The location of the Project has been determined to potentially impact one or more potential environmental justice areas (PEJA) (See **Figure 1**).

This PPP has been developed in accordance with the procedures established in CP-29 Section V.D and it aims to help ensure meaningful and effective public participation throughout the NYSDEC environmental permit review process. Public participation in the NYSDEC environmental permit review process means a program of activities that provides opportunities for stakeholders to be informed about and involved during the review of a proposed action.

The objective of this PPP is to outline and describe the program of activities that the applicant will implement to actively seek and enhance public participation during the application review process.

Shoemaker Gas Turbine Facility
 71 Dolson Avenue
 Middletown, 10940

II. PROJECT DESCRIPTION AND PROPOSED ACTION

Project Overview

The Shoemaker Gas Turbine is a peak generating station. Peak generating stations generally run when there is a high electrical demand. The Shoemaker Gas Turbine operates within Orange and Rockland's Middletown operations center. The applicant proposes to add a water injection air pollution control system to control oxides of nitrogen (NO_x) emissions at the Shoemaker Gas Turbine Facility. In addition, the facility will use only natural gas during the ozone season to meet the regulatory requirements of 6 NYCRR Subpart 227-3. In addition to the air pollution control system, Alliance plans on end the existing Air Title V Permit, replacing it with an Air State Facility (ASF) Permit, which will limit facility emissions of carbon monoxide to below 99.5 tons per 12-month rolling total. All other pollutants will also remain below corresponding Title V thresholds based on a 12-month rolling total.

To implement the proposed project, Alliance has submitted an application to the New York State Department of Environmental Conservation (NYSDEC) for an ASF Permit to become permitted as a State Facility. The permit modification will reduce the concentration of oxides of nitrogen from the two engines to below 25 parts per million (ppm) during the ozone season and limit carbon monoxide emissions to below 99.5 tons per 12-month rolling total. Following issuance of the ASF Permit, the existing Title V Permit will be rescinded.

Nature of Proposed Project/Action and Purpose

Alliance NYGT LLC has applied for an ASF Permit to comply with New York State regulatory thresholds specified in 6 NYCRR Subpart 227-3, "Ozone Season Oxides of Nitrogen (NO_x) Emission Limits for Simple Cycle and Regenerative Combustion Turbines". To do so, Alliance is adding a water injection system to reduce the NO_x concentration to 25 ppm or less when operating on natural gas. In order to comply with Subpart 227-3, Alliance commits to use only natural gas during the ozone season, although diesel fuel may be used during non-ozone season, when natural gas is unavailable. Further, the facility will limit carbon monoxide (CO) emissions to 99.5 tons per year.

Shoemaker Gas Turbine Facility
71 Dolson Avenue
Middletown, 10940

Potential Impacts

An EJ review is intended to assess if the proposed project would cause disproportionately high and adverse effects on minority and/or low-income populations. A disproportionately high and adverse impact is one that is 1) predominately borne by minority and/or low-income populations, and 2) is appreciably more severe or greater in magnitude to minority and/or low-income populations than that which will be suffered by non-minority and/or non-low-income populations.

Relocation of Residences or Businesses/Land Acquisition – The proposed project will not disrupt or divide any established communities nor will it require any relocation of local community businesses and residences. The proposed project involves adding control equipment to reduce oxides of nitrogen emissions as well as limit carbon monoxide emissions from the facility.

Disruption of Local Traffic Patterns – No permanent impacts or disruptions to local traffic patterns are expected with the Proposed Project. There may be a few additional vehicles on local roadways serving the project area during installation of the control equipment. However, these impacts are not expected to result in any delays or disruption.

Community Disruption (Public Services and Social Conditions) – The proposed project will not affect the availability of public services. It will result in a slight increase in water usage, but have no effect on transportation, medical, education, or utility services.

Loss in Community Tax Base – No change to the community tax base is expected.

Economic Activity – The proposed project will not increase or decrease economic growth to the area nor will it result in any long-term economic impacts to the region.

Mitigation – The project is to add a water injection system to reduce oxides of nitrogen emissions. The project is not expected to have any socioeconomic impacts and will not result in disproportionately high or adverse impacts to low income and/or minority populations. Subsequently no mitigation measures are proposed.

III. STAKEHOLDER IDENTIFICATION & CONTACT LIST

A contact list consisting of the names, addresses, phone numbers, or email addresses of stakeholders to the proposed action is provided in **Appendix A**. The contact list includes individuals and organizations with a direct stake in the proposed action and people and individuals and organizations that have expressed interest in the proposed project or similar projects affecting the same neighborhood or community.

To develop a draft contact list, the applicant will reach out to residents/neighborhood groups who are near or adjacent to the proposed project and that will be or potentially will be affected by the operation; community boards, community leaders, local community, civic and recreational organizations, environmental and business groups.

The current contact list has been developed by identifying stakeholders from the following categories: local government and elected officials; business owners, residents, and occupants; local civic, community, environmental and religious organizations; local news media; administrator/operator of any school or day care that live, work and/or represent a neighborhood or community within a one half-mile radius of the project area (see **Figure 1** for the project area radius).

The applicant will utilize this contact list to communicate and disseminate information about the proposed project/action and permit application review process to the affected community and stakeholders. At minimum, this includes distribution of the written information and outreach materials described in Section V to inform the community about upcoming public meetings and opportunities for public participation.

The contact list will be reviewed periodically and updated as appropriate throughout the permit application review process. The applicant will update the contact list with any new stakeholders identified during the public meeting or execution of other PPP components. In addition, individuals and organizations will be added to the contact list upon request. Such requests should be submitted to the project liaison identified in Section IV. Other additions to the contact list may be made at the discretion of the applicant or, at the request of the NYSDEC project manager, in consultation with other NYSDEC staff, as appropriate.

See **Appendix A** for a full contact list of Stakeholders.

IV. PROJECT LIAISON

A representative from the project team will be available during business hours at:

- Greg Sharland
- Email: gsharland@aeny.us
- Phone: 585-343-6006
- Alliance NYGT, LLC
110 East Seneca Street
Sherrill, NY 13461

Impacted residents and interested stakeholders can contact the project liaison listed above to provide input to the project team, discuss any issues or concerns and/or to ask questions or request information. The project liaison shall respond in a timely manner and in the manner appropriate to question or information request received. The project liaison will be responsible for tracking and documenting public input, inquires, questions, and information requests received, along with responses provided.

V. PUBLIC OUTREACH ACTIVITIES

The applicant will utilize engagement strategies and conduct various public outreach activities to facilitate participation, involvement, and direct communication with the affected community during the permit application review process. The applicant will implement the public outreach activities outlined below upon finalization and approval of this PPP by NYSDEC.

In compliance with the requirements of CP-29, the applicant will hold a public information meeting to keep the public informed about the proposed action and the environmental permit review process. At minimum, the applicant will prepare, distribute and post written information and materials, including a meeting notice and fact sheet, to encourage dialogue and solicit input from interested stakeholders during the permit application review process. Public outreach materials and information will be prepared and presented in an easy-to-read, understandable format, using plain language free of legal terminology, and geared towards a non-technical audience.

The public meeting notice and fact sheet, provided in **Appendix B** and **Appendix C**, will be made available and disseminated in English. In addition, the public can contact the project liaison regarding the availability of language assistance and to request that the notice and fact sheet are translated into another language for comprehension by non-English speaking or limited proficiency stakeholders.

Public Meeting(s)

One virtual public meeting(s) will be conducted to satisfy the intent of CP-29. The meeting will be advertised and virtual.

A meeting will occur near the end of the permit application review process to inform the public about: the status of, or, if applicable, the availability of, final application materials and draft permits for review; the pending NYSDEC public comment period, and deadline to submit written comments to NYSDEC, if established; and eventual final decision.

Public Meeting: At or Near Completeness

Applicant will facilitate a virtual public meeting on April 3, 2023 to:

- Inform the public about the proposed project/action and permit application review status.
- Provide the opportunity for stakeholders to ask questions and express concerns about the project and identify how to obtain information or answers to questions after the meeting has concluded.
- Inform attendees how they may submit written comments on the permit application to the NYSDEC during the public comment period and, if available, identify any applicable deadlines.

Necessary Meeting Discussion Points and Requirements

Any meeting will be facilitated by the applicant and/or representatives from their project team (project personnel) via Zoom. During the meeting, the applicant and/or representatives from their project team will present a brief overview of the project, including any relevant background information, details on the permitting action, scope of work, schedule, and community impacts. The second part of the meeting will include a question-and answer-portion where the floor will be open for attendees to ask questions, make remarks, and/or express concerns. In addition, the following discussion points will be addressed:

- Provide an update on the permit application review process and identify outstanding application requirements and future milestones in the application review process;
- Make it clear that the meeting is being held prior to NYSDEC's permitting decision for the project/action;
- Identify the location of the online document repository and provide directions on how attendees may obtain and review materials relevant to the application, documents related to the meeting and other public participation plan components;

- Identify and provide contact information for the project liaison and announce procedures for how attendees may obtain answers to questions after the meeting has concluded and interested stakeholders can submit questions, express concerns, or request additional information by telephone, email, and in writing; and
- Announce any future outreach, opportunities for public participation, and/or required follow-up with attendees including, but not limited to: additional meetings and future mailings, including, but not limited to the Notice of Complete Application.

Attendance will be recorded during the virtual meeting by virtual sign-in sheets/participant lists. The applicant will track the number of attendees for all meetings held during implementation of this PPP and, where feasible and applicable, identify any affiliation of participants and interests represented at the meeting. In addition, the applicant will be responsible for documenting meeting notes or minutes, along with a record of comments and questions raised in the meeting and respective responses and answers provided. Attendees not identified on the contact list will have the option to be added in the event of future meetings or information sharing.

Public Meeting Notice Preparation and Distribution

Information regarding the details of the public meeting(s) and how to participate via computer and/or telephone is contained in the reader-friendly meeting notice(s) shown in **Appendix B**. The notice has been prepared in English. Through this notice, the public will be invited and encouraged to attend the virtual public meeting scheduled on April 3, 2023.

Once the PPP has been approved by NYSDEC the public meeting notice will be posted and available in the online document repository described in Section VI of this document. At least two weeks in advance of the public meeting, the notice will be published in the Times Herald-Record which is a daily newspaper printed, published, and circulated in Middletown, NY. In addition, the public meeting notice will be emailed or mailed to the stakeholders identified in the contact list in **Appendix A** at least two weeks prior to the public virtual meeting.

Fact Sheet Preparation and Distribution

Factual information on the proposed project/action, including an overview, purpose statement, and potential impacts, is outlined in the reader-friendly fact sheet shown in **Appendix C**. In addition, the fact sheet outlines how interested stakeholders can: participate in the permit application review process; access the online document repository to review relevant application materials prior to the public meeting; and contact the project team to obtain additional information. The fact sheet has been prepared in English and Spanish.

Once the PPP has been approved by NYSDEC the fact sheet will be posted and available in the online document repository described in Section VI of this document. No later than 2 weeks prior to the public meeting, the applicant will distribute the fact sheet to provide stakeholders with relevant background on the proposed project/action and facilitate meaningful participation during the meeting. The fact sheet will be distributed together with the public meeting notice via email, mail and/or hand delivery (door-to-door).

The fact sheet(s) will also be posted within the vicinity of the project site and visible to the public. For example, they may be posted on bulletin boards located in the lobby of residential complex buildings or public facilities such as libraries, schools, or community centers within the project site.

Distribution of Notice of Complete Application

Once NYSDEC determines the application(s) for the proposed action/project is complete and provides the Notice of Complete Application (NOCA) to the applicant, the applicant will distribute the NOCA and draft permit, if applicable, to the meeting attendees and any identified interested parties, to provide notification regarding the start of the NYSDEC public comment period and to announce the deadline for submission of written comments to NYSDEC. If the NOCA is available at the time of the meeting, the applicant will distribute the NOCA at the public meeting. If the NOCA is not available at the time of the meeting, the applicant will provide explicit instructions on how to access the online repository and inform the attendees that, once available, the NOCA will be posted to the online document repository and will be distributed to attendees via email or mail as soon as possible, but no later than the date that the NOCA is published by the applicant in the print edition of a paid local newspaper that is circulated at least weekly and available in the municipality in which the project is located.

VI. DOCUMENT REPOSITORY

An online document repository has been established for the community and interested stakeholders to access and review information about the project. The online repository available at <https://www.cscos.com/shoemaker-gas-turbine-facility/> will provide information and documents relating to the project and permit application.

The repository will be updated throughout the application process with project-related information and written materials (i.e., application forms and supporting materials, draft permit, fact sheet, statement of basis (where applicable), the Notice of Complete Application provided by the NYSDEC, etc.).

VII. SUBMISSIONS

Final Summary Report and Written Certification

Upon completion of the public participation plan, the applicant will submit written certification to NYSDEC to certify that it has fully executed and complied with the approved PPP. The certification shall be signed by the applicant, or the applicant's agent, and submitted to NYSDEC prior to a final decision on the application.

As part of the certification, the applicant shall submit a final summary report documenting the implementation of this PPP. The report will summarize the activities that occurred in accordance with the PPP and will identify any substantive concerns raised by stakeholders during the public meeting, or, at any time throughout the permitting process and detail the applicant's response(s) to any such concerns or questions. The applicant will include, or append, any documentation that supports the final summary report, such as: the meeting sign-in sheet(s), record of attendees/participants, meeting presentation, notes or minutes, summary of questions and answers, and copy of newspaper notice or other proof of publication. In addition, the report will identify any changes or modifications to the proposed project that were made or considered by the applicant to address or reduce concerns surrounding the permit application.

The final summary report and written certification will become part of the application record and will be posted to the online document repository so that it is readily available to the public.

APPENDIX B
Virtual Public Meeting Notice

Shoemaker Gas Turbine Facility

PUBLIC INFORMATION MEETING

Please join us...

DATE: April 3, 2023
TIME: 4:30pm to 6:30pm
LOCATION:
(Virtual) www.zoom.com
Meeting ID: 945 7443 7733
Passcode: 602077

PROPOSED PROJECT

The Proposed Project involves installation of a water injection system to control oxides of nitrogen (NOx) emissions. In order to further reduce emissions of NOx, Alliance Energy will only use natural gas during the ozone season. These modifications are required to meet the regulatory requirements of 6 NYCRR Subpart 227-3. In addition, the facility will comply with the requirements of the existing Title V Permit, including a limit on operating hours of the turbine engines to 1,185 hours per year.

Instalación de turbina de gas Shoemaker

ASAMBLEA PARA INFORMACIÓN PÚBLICA

Acompañenos...

FECHA: 3 de abril de 2023
HORA: 4:30 p.m. to 6:30 p.m.
LUGAR: Virtual
www.zoom.com
identificación de la reunión:
945 7443 7733
contraseña: 602077

- ✓ Obtener información sobre el proyecto
- ✓ Aprender acerca del proceso de divulgación pública
- ✓ Hablar con representantes del equipo del proyecto
- ✓ Pedir respuestas a sus preguntas
- ✓ Discutir sus inquietudes respecto al proyecto propuesto
- ✓ Enviar comentarios

PROYECTO PROPUESTO

El proyecto propuesto se relaciona con la instalación de un sistema de inyección de agua para controlar las emisiones de óxido de nitrógeno (NOx). Con el fin de reducir aún más las emisiones de NOx, Alliance Energy solamente utilizará gas natural durante la temporada de ozono. Estas modificaciones son necesarias para cumplir los requisitos normativos establecidos en la Subparte 227-3 de los códigos, normas y reglamentos de Nueva York (NYCRR). Además, la facilidad cumplirá los requisitos del actual Permiso del Título V, que incluye un límite en el horario de funcionamiento de las turbinas a 1,185 horas por año.

APPENDIX C
Fact Sheet

Shoemaker Gas Turbine Facility

PROJECT FACT SHEET

A Public Participation Plan (PPP) has been developed in accordance with NYSDEC Commissioner Policy 29, Environmental Justice and Permitting (CP-29).

WHAT IS THE PROPOSED PROJECT?

The Proposed Project involves construction of a water injection system to control oxides of nitrogen (NOx) emissions. In order to further reduce emissions of NOx, Alliance Energy will only use natural gas during the ozone season. These modifications are required to meet the regulatory requirements of 6 NYCRR Subpart 227-3. In addition, the Shoemaker facility has applied for a Air State Facility Permit, which will limit carbon monoxide emissions to 99.5 tons per year.

WHY DOES THE PROJECT NEED THE EXISTING AIR PERMIT?

The Shoemaker Energy Facility currently has and complies with a Title V Air Permit. New York State regulations require that facility modifications involving air pollution control equipment be authorized prior to installation of the control equipment. In addition to the proposed installation of control equipment, Alliance NYGT is applying for an ASF Permit, which will limit carbon monoxide emissions. Upon issuance of the ASF Permit, the existing Title V Permit will be rescinded. As part of the application process for this modification, Alliance NYGT, LLC has prepared a Climate Leadership and Community Protection Act (CLCPA) analysis of greenhouse gas emissions from the facility as well as a Public Participation Plan (PPP).

WHO IS RESPONSIBLE FOR REVIEWING THE PERMIT APPLICATION?

New York State Department of Environmental Conservation
NYSDEC Region 3
21 South Putt Corners
New Paltz, NY 12561
845-256-3000
dep.r3@dec.ny.gov

HOW MIGHT THE PROJECT AFFECT THE SURROUNDING COMMUNITY?

The proposed project of adding a water injection system inside the Shoemaker Gas Turbine Facility is not anticipated to result in any adverse impacts to the community. There will be no disruption of local businesses or residences. Short-term impacts associated with construction would be a few additional vehicle trips associated with the workers commute and delivery of the system.

For application materials, documents and information about the project, visit the online document repository:

Applicant:

Alliance NYGT, LLC.
Facility: Shoemaker Energy Facility
NYSDEC Permit #
3-3309-00040

HOW CAN I GET INVOLVED?

- Attend the upcoming virtual public meeting scheduled for April 3, 2023 at 4:30 pm to learn about the project, the public outreach process for the project, ask questions and/or express concerns about the project.
- Provide input or submit feedback by comments in writing, by phone or email to the project contact person identified below.

Instalación de turbina de gas Shoemaker

HOJA INFORMATIVA DEL PROYECTO

Se ha elaborado un plan de participación pública (PPP) en virtud de la Política del Comisionado 29, Justicia Ambiental y Concesión de Permisos (CP-29) del NYSDEC.

¿CUÁL ES EL PROYECTO PROPUESTO?

El proyecto propuesto se relaciona con la instalación de un sistema de inyección de agua para controlar las emisiones de óxidos de nitrógeno (NOx) en la facilidad Shoemaker. Con el fin de reducir aún más las emisiones de NOx, Alliance Energy solamente utilizará gas natural durante la temporada de ozono. Estas modificaciones son necesarias para cumplir los requisitos normativos establecidos en la Subparte 227-3 de los códigos, normas y reglamentos de Nueva York (NYCRR). Además, la planta Shoemaker pondrá fin al actual Permiso del Título V con la obtención del Permiso de Instalación Estatal del Aire (ASF, *Air State Facility*), que limitará las emisiones de monóxido de carbono a 99,5 toneladas por año.

¿CÓMO AFECTARÁ EL PROYECTO LA COMUNIDAD CIRCUNDANTE?

No se anticipa que el proyecto propuesto de añadir un sistema de inyección de agua en el interior de la facilidad Shoemaker tenga efectos negativos sobre la comunidad. Esto no interferirá con comercios ni residencias locales. La repercusión a corto plazo asociada con la construcción serían unos pocos viajes adicionales de vehículos asociados al traslado de los empleados hacia y desde su trabajo y la entrega del sistema.

¿CÓMO PUEDO PARTICIPAR?

- Asista a la próxima asamblea pública virtual programada para el 3 de abril de 2023 a las 4:30 p.m. para conocer el proyecto y el proceso de divulgación pública del proyecto, hacer preguntas o expresar su preocupación sobre el mismo.
- Exprese su opinión o envíe sus comentarios por escrito, teléfono o correo electrónico a la persona de contacto del proyecto abajo identificada.

¿POR QUÉ EL PROYECTO NECESITA UN PERMISO DE AIRE?

La facilidad Shoemaker actualmente tiene un Permiso de Aire Título V y lo cumple. Las reglamentaciones del Estado de Nueva York exigen que las modificaciones de una planta relacionadas con equipos de control de contaminación atmosférica sean autorizadas antes de la instalación de tales equipos de control. Además de la instalación del equipo de control propuesto, Alliance NYGT está solicitando un Permiso ASF, que limitará el horario de funcionamiento de las turbinas y las emisiones de NOx. Cuando el Permiso ASF sea otorgado, quedará rescindido el actual permiso del Título V. Alliance NYGT ha elaborado un análisis de la Ley de Liderazgo Climático y Protección Comunitaria (CLCPA) sobre las emisiones de gas de efecto invernadero de la planta así como un plan de participación pública (PPP).

¿QUIÉN ES RESPONSABLE POR LA REVISIÓN DE LA SOLICITUD DEL PERMISO?

Departamento de Conservación Ambiental del Estado de Nueva York
NYSDEC Región 3
21 South Putt Corners
New Paltz, NY 12561
845-256-3000
dep.r3@dec.ny.gov
